

Instructions for filing for a medical exemption from submitting proof of Immunization.

The [Immunization Handbook for Postsecondary Institutions](#) provides the following information regarding Medical Exemptions for students:

Medical Exemption

A licensed physician, physician assistant, or nurse practitioner, or licensed midwife for a pregnant student certifies in writing that the student has a health condition which is a contraindication to receiving a specific vaccine, that a permanent or temporary (for resolvable conditions such as pregnancy) exemption may be granted. This statement specifies those immunizations which may be detrimental and the length of time they may be detrimental. Provisions need to be made to review records of temporarily exempted persons periodically to see if contraindications still exist. In the event of an outbreak, medically exempt individuals should be protected from exposure. This may include exclusion from classes.

In general, the following persons should not receive Measles, Mumps, or Rubella vaccine without checking with a doctor.

- ‡ 3 UHYLRXV DQDSK\ODFWLF UHDFWLRQ WR WKL V YDFFLQH RU WR DQ\ RI LW
- ‡ 3 UHJQDQF\ RU SRVVLELQW\ RI SUHJQDQF\ ZLWKLQ ZNV
- ‡ 6 HYHUH LP RYXQ, Genital Herpes, solid tumors; receiving chemotherapy; congenital immunodeficiency; long-term immunosuppressive therapy; or severely symptomatic HIV).

Note: HIV infection is NOT a contraindication to MMR for those who are not severely immunocompromised
