**We cover the cost of services based on whether doctors are "in network" or "out of network." We want to help you understand how much we pay for your out-of-network care. At the same time, we want to make it clear how much more you will need to pay for this "out-of-network" care.

You may choose a provider (doctor or hospital) in our network. You may choose to visit an out-of-network provider. If you choose a doctor who is out of network, your health plan may pay some of that doctor's bill. Most of the time, you will pay a lot more money out of your own pocket if you choose to use an out-of-network doctor or hospital.

When you choose out-of-network care, we limit the amount it will pay. This limit is called the "recognized" or "allowed" amount.

‡ For doctors and other professionals the amount is based on what Medicare pays for these services. The government sets the Medicare rate. Exactly how much we "recognize" depends on the plan you or your employer picks.

Your doctor sets his or her own rate to charge you. It may be higher -- sometimes much higher -- than what your plan "recognizes." Your doctor may bill you for the dollar amount that we don't "recognize." You must also pay any copayments, coinsurance and deductibles under your plan. No dollar amount above the "recognized charge" counts toward your deductible or out-
